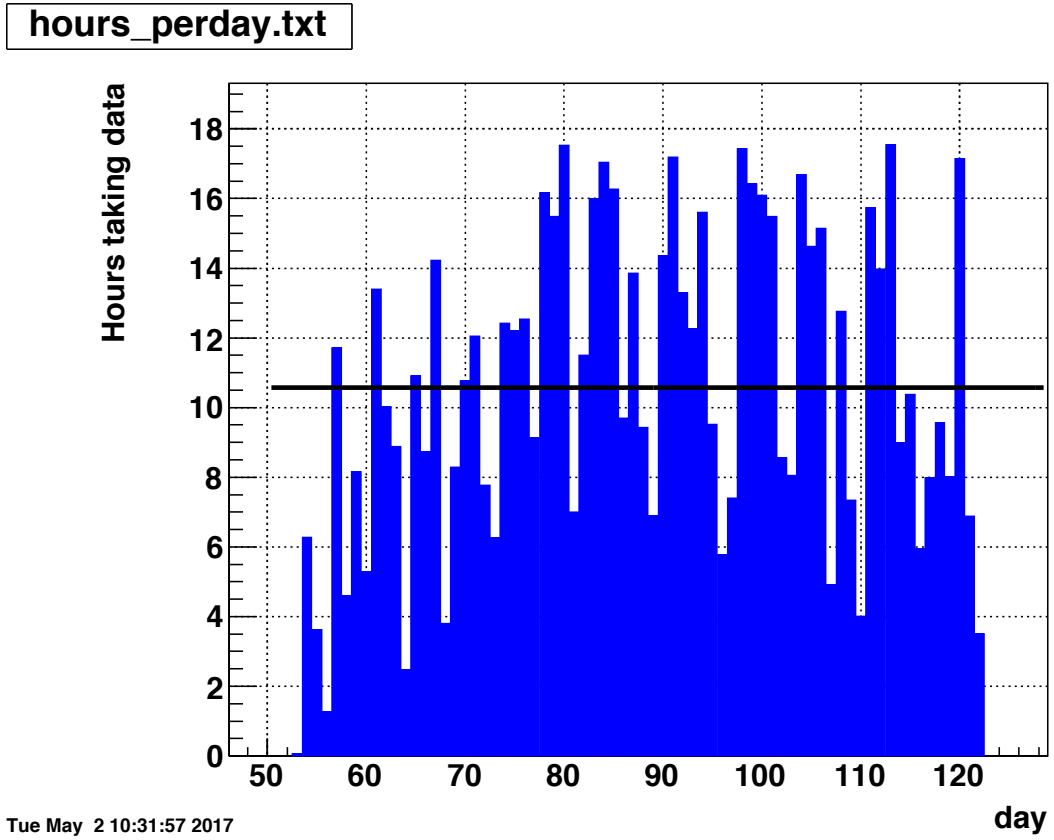
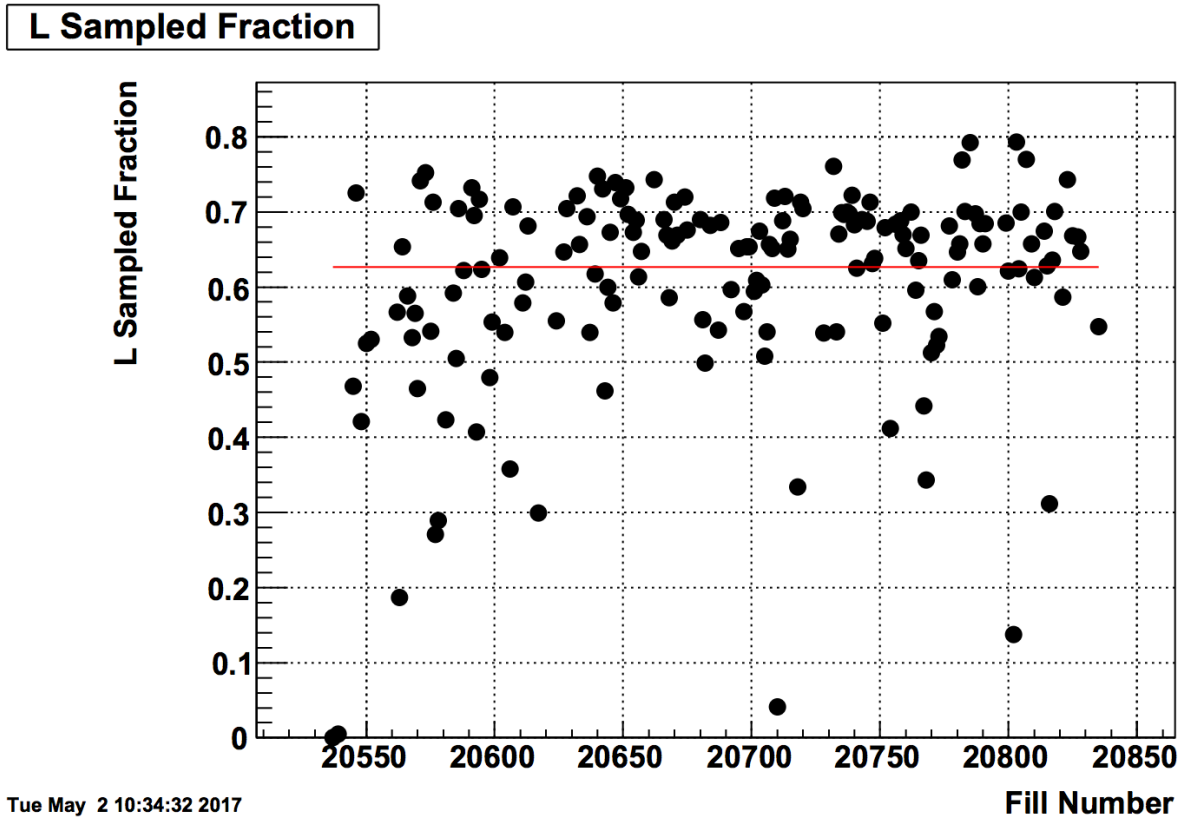
STAR Status Report

Xiaofeng Luo 05/02/2017

STAR operation – ran smoothly last week

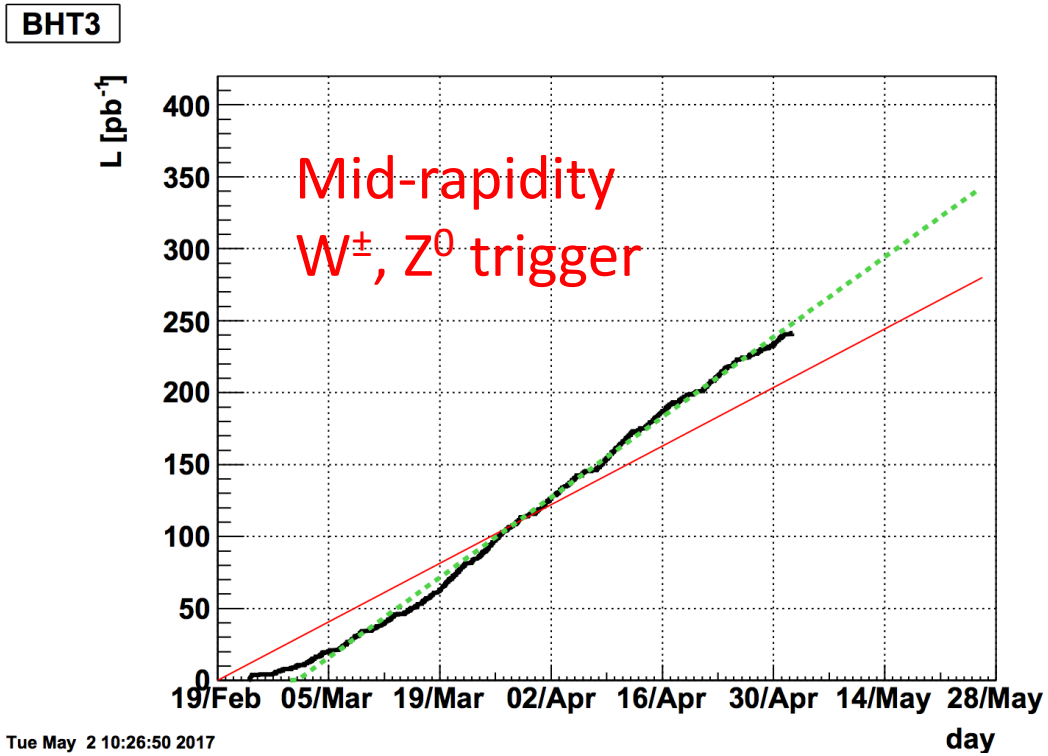




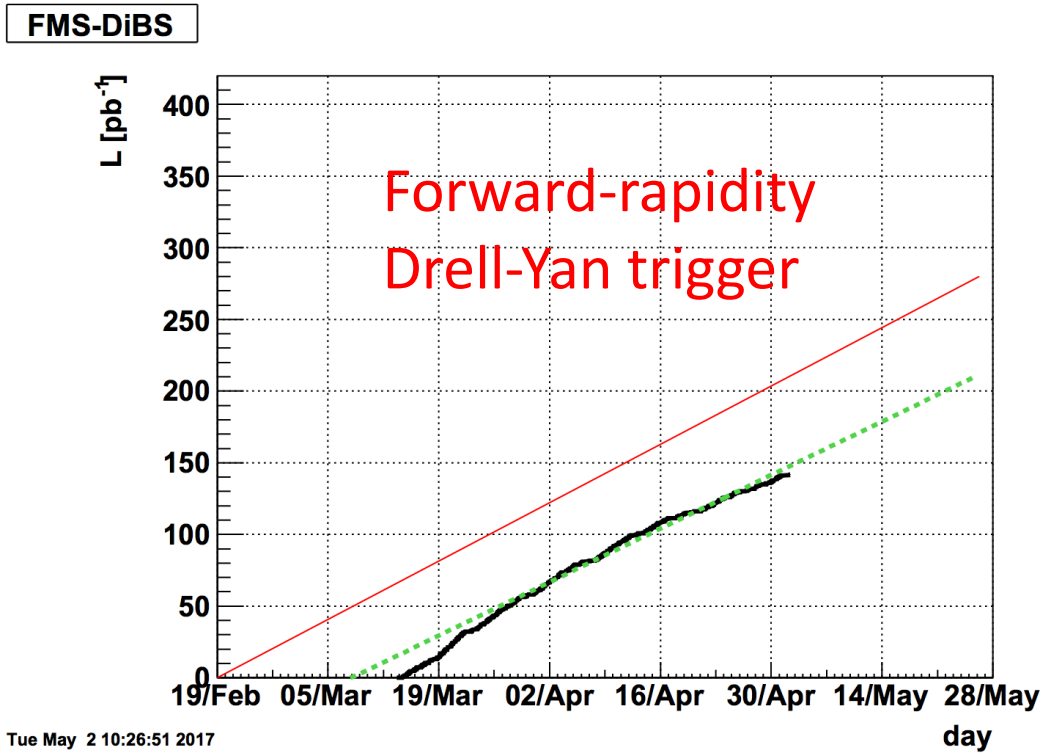
Time at store was less than usual for this past Friday and Saturday.

Current projection on data set goals

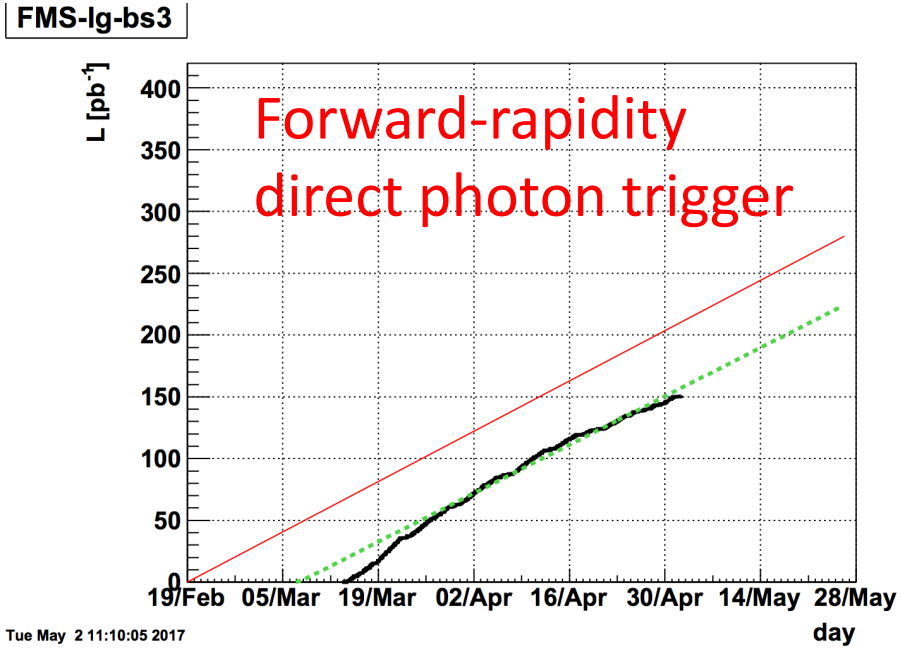
- Weak Bosons & Drell-Yan measurements in the BUR assumed: *RHIC delivered Luminosity of 400pb^{-1}* * STAR Luminosity sampling efficiency = ***280 pb^{-1} sampled luminosity***

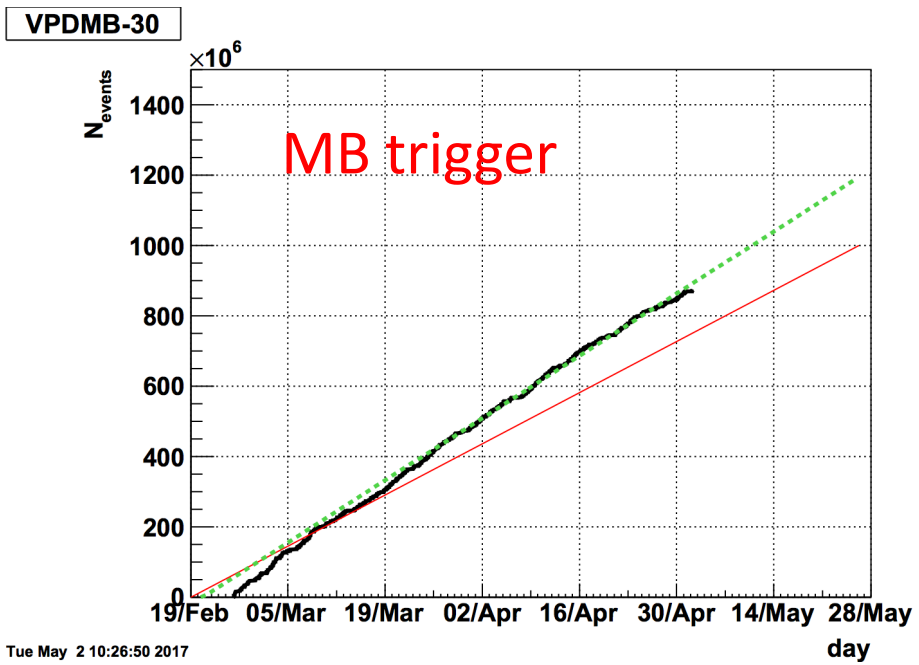


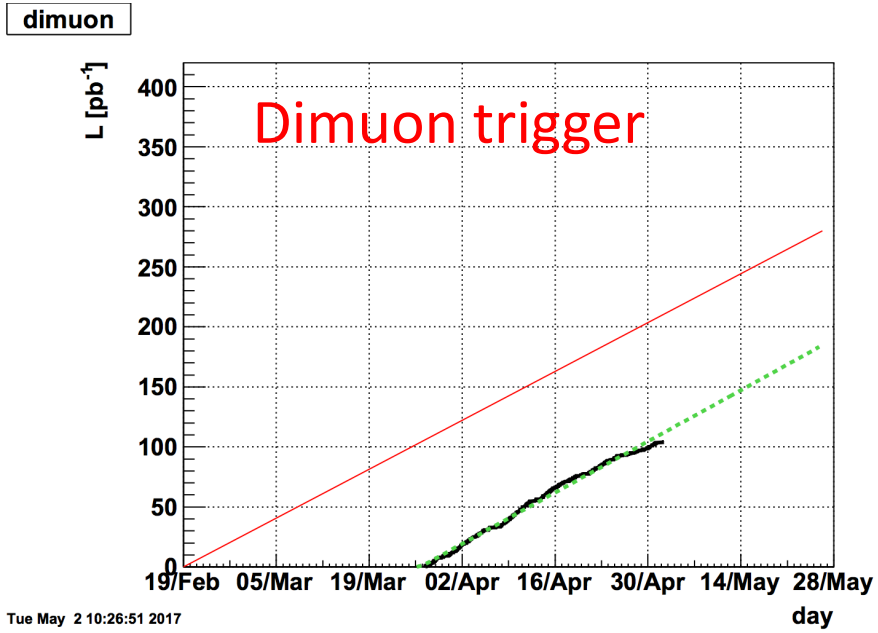
- Achieved ~85% physics goal

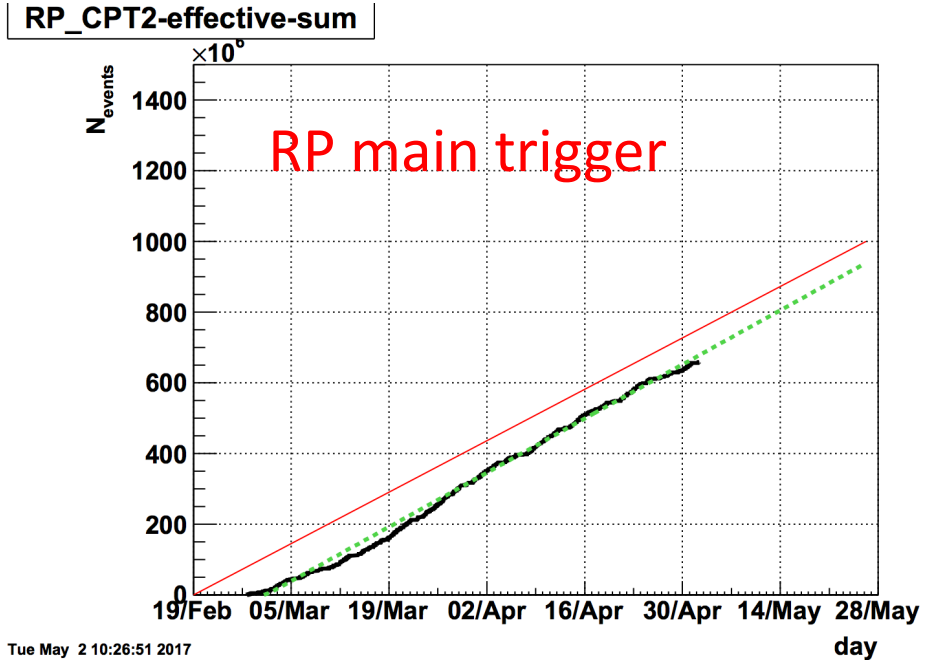


- Increasing the threshold









- STAR is running well
