

## Technical Notes

[CA-AP-421](#) Multipole error data analysis for RHIC low-energy operations by C. Montag, January 2011

[CA-AP-435](#) Experience with low-energy gold-gold operations in RHIC during FY 2010 by C. Montag, et. al., October 2011

[CA-AP-449](#) Potential for luminosity improvement for low-energy RHIC operations with long bunches by A. Fedotov and M. Blaskiewicz, February 2012

[CA-AP-476](#) Choosing RF system for low energy RHIC operation by V. Litvinenko, January 2013

[CA-AP-477](#) IBS for RHIC operation below transition energy and various RF systems by A. Fedotov, February 2013

[CA-AP-481](#) Projections of potential luminosity improvement for low-energy RHIC operation with electron cooling by A. Fedotov, April 2013
