

BRAHMS Run5 pp Status

- DAQ time in the previous week (May 17-May 24 8am): 93.5hr (12.7hr/day)
- Main physics goal: single spin transverse asymmetry at high- x_F
 - To meet the physics goal: 5pb^{-1} (delivered) with $\text{pol.} \geq 45\%$
 - Major setting: FS at 2.3 deg. at full field setting
 - FS 4 deg. at full field for Asymmetry measurements at high- p_T
 - FS 3+2.3 deg. at full field for Asymmetry measurements at high- x_F

BRAHMS Run5 200 GeV p+p run

Integrated Luminosity "Recorded" (pb^{-1})
