

Monday 9 April 2012  
10<sup>th</sup> Scheduling Meeting

---

Minutes

---

Present : Mei Bai, Bill Christie, Wolfram Fischer, Xiaochun He, Haixin Huang, Yousef Makdisi, François Méot, Phil Pile, Paul Sampson, Vincent Schoefer.

♣ Brief overview of the coming week : see table next page

♣ Excerpts from the discussion :

- Maintenance on Wednesday 11<sup>th</sup>, 0600am ~ 0400pm, RHIC start ~0600pm. Tunnel access from 1000am, where needed. Access to AGS ~1hr needed, possible behind store tomorrow or during Maintenance. Replacement of polarimeter targets : could be done by ~1200, then pump down 4-6 hrs.

- APEX this week is on Thursday 12<sup>th</sup>, 12 hours : 0800am → 0800pm.

Following APEX - and following target replacement : MD, starting 0800pm for 2-3 hours about, low emittance ramps, relates to polarization response

- Friday 13<sup>th</sup> : MD ~2 hours, 0800am~1000am, RF developments relating to longitudinal emittance.

- Question of calibration of jet polarimeter at 25GeV addressed. Needs further discussion.
