

Accelerator Support and Maintenance

Startup for Run 13

A vertical stack of four images on the left side of the slide. From top to bottom: a clock with a blue face and black hands on a red background; a clock with a yellow face and black hands on a blue background; a stack of papers on a green background; and a stack of papers on a purple background.

Startup at a glance:

- EBIS, LINAC and Booster in full operation for Polarized setup, NRO running and BLIP operation.
- AGS setup for Polarized protons is ongoing.
- RHIC pre beam checkout/preparation has begun.
- Experimental checkout nearing completion.

Injector issues:

- Siemens MG set repair nearing completion, changeover from Westinghouse this week.
- Setup with Westinghouse doing well...
- Details and schedule for maintenance finalized here at 1500hrs at Scheduling meeting.

Major work tomorrow:

- Siemens tests.
- H10 UPS changeover: Affects Access controls, vacuum, power supply, RF...
- AGS cold snake card replace = several hours recovery.
- AGS extraction bump.
