

# CeC PoP Experiment

February 16, 2016

# Test of the Quadrupole Effects of RHIC Beam

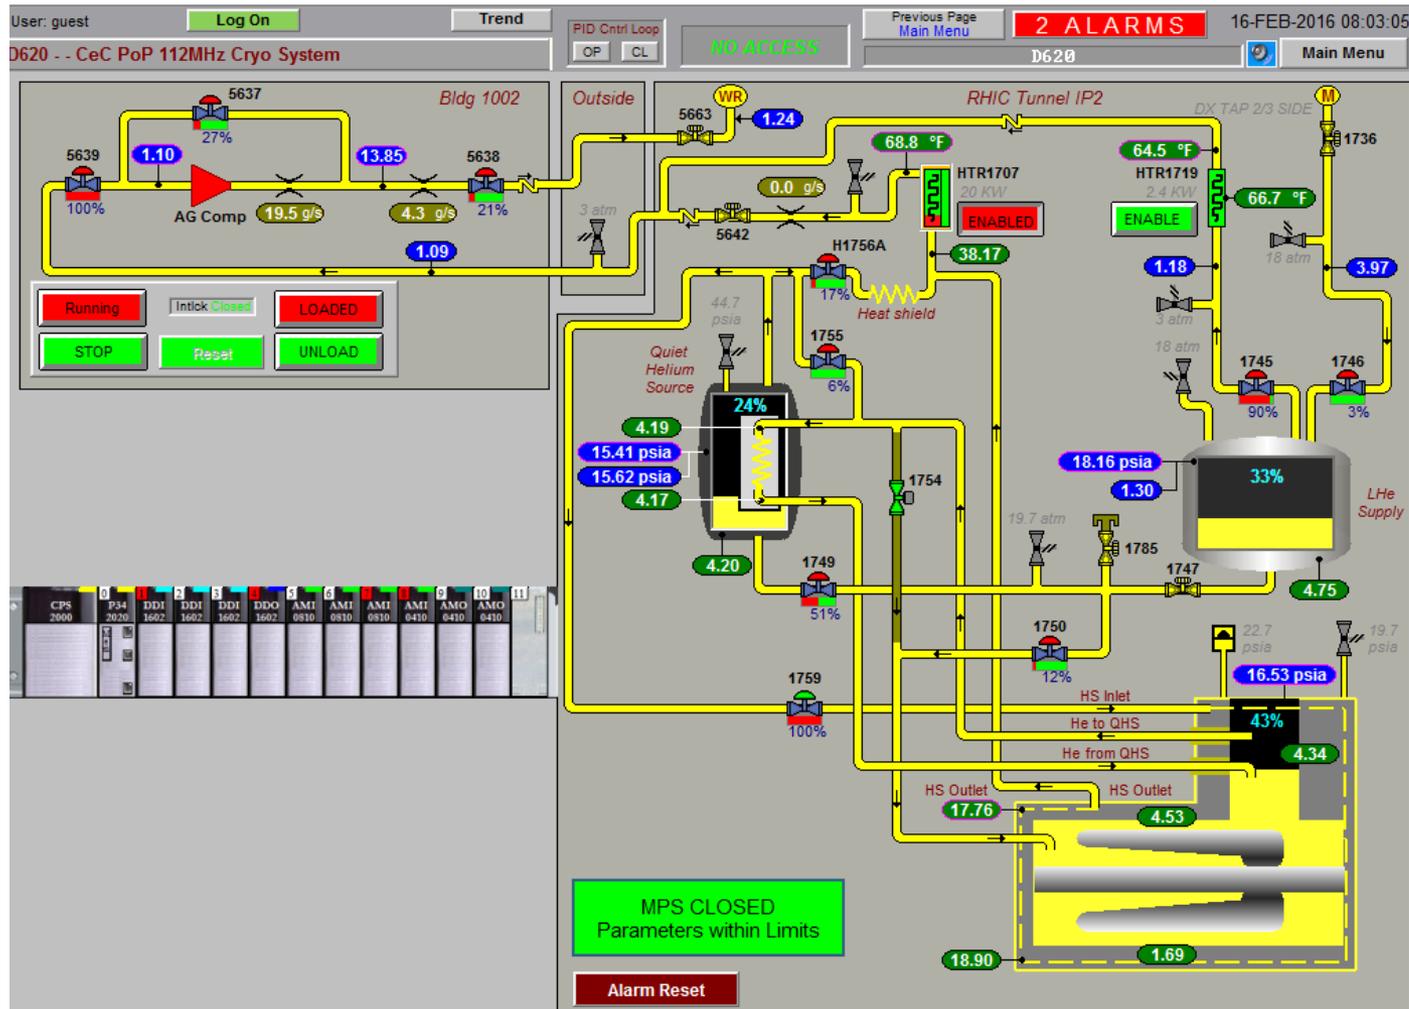

— Blu\_Horiz

— Blu\_Vert

- Gold ions were circulating in the blue ring
- Eight quadrupoles were energized one by one at full swing
- Tunes were monitored
- The measured effect is close to the expected
- Yellow beam will be studied next APEX session

# CeC PoP Gun Is Cold

Start of the gun conditioning is scheduled at noon today.
