# STAR Status
# Days 118-124

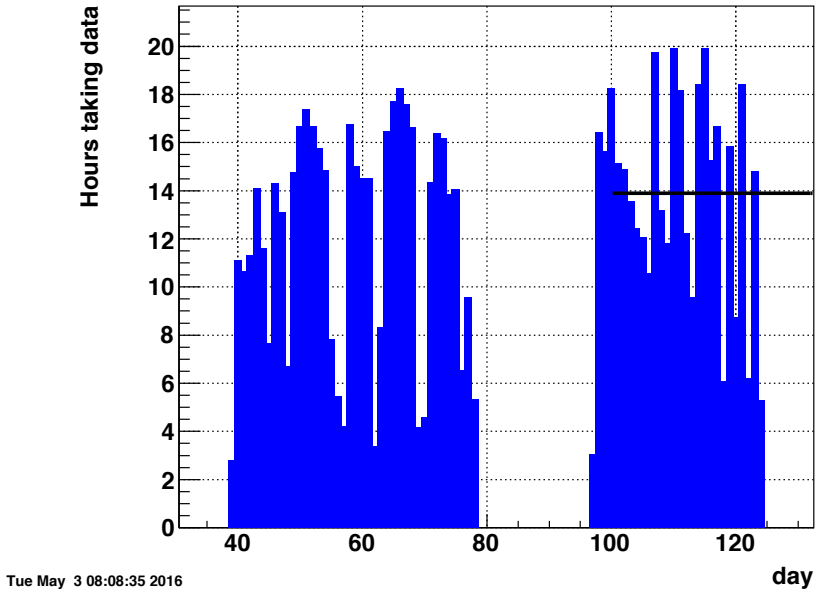
Takahito Todoroki

Time Meeting

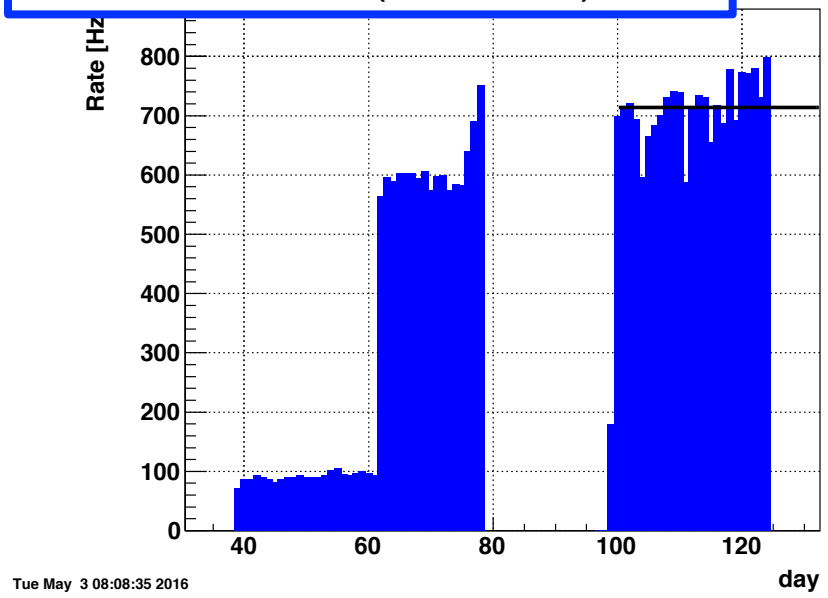
May 03, 2016

# Sampled Luminosity

Hours per day

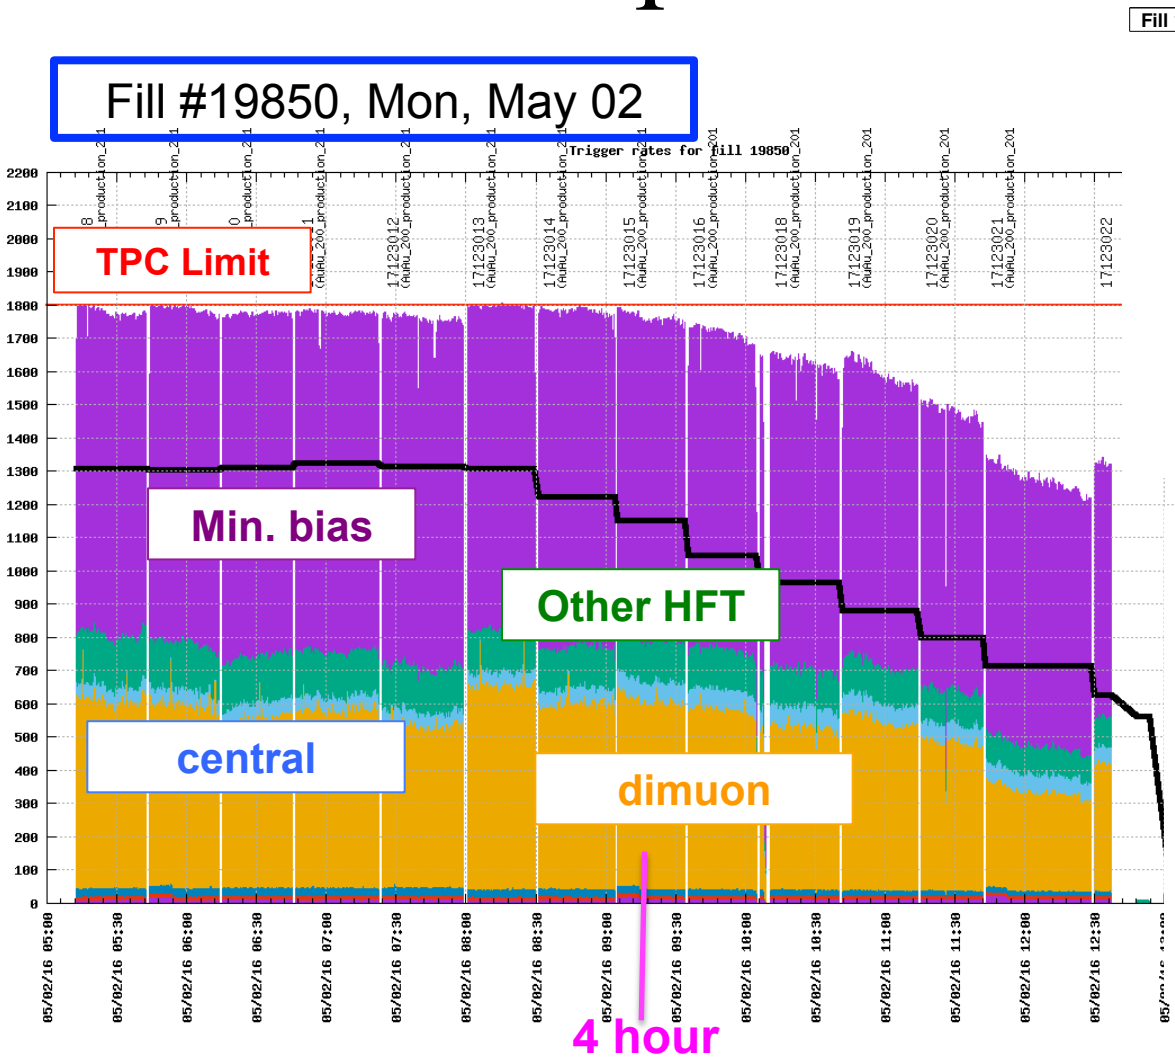


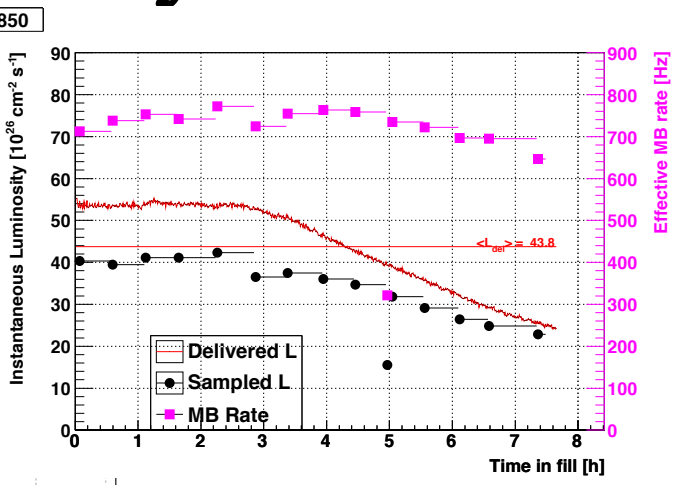
Effective rate per day
Min. Bias. (with HFT)

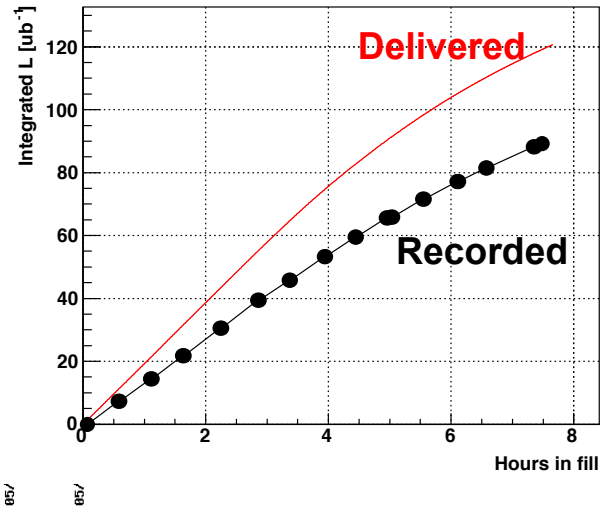


- Wednesday : APEX Day
- Thursday : Smooth Data Taking
- Friday : RHIC Down Time
- Weekend : RHIC Down Time, STAR Net Work Issue (~1 hour)
- Monday : ZDC Issues

# Sampled Luminosity



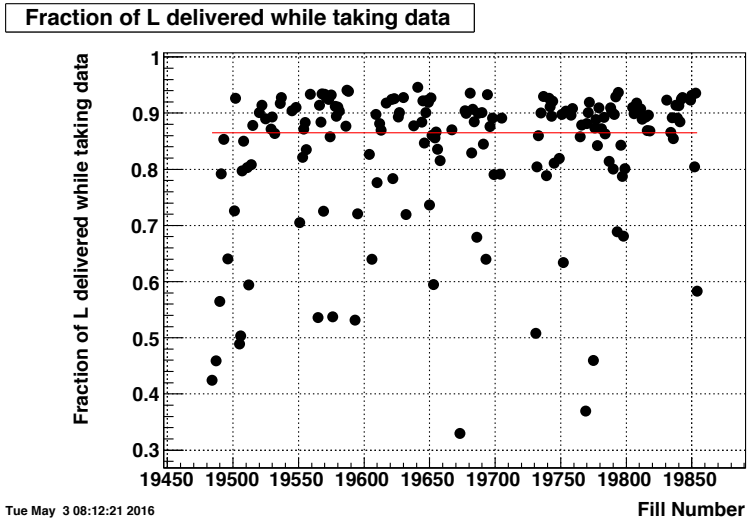


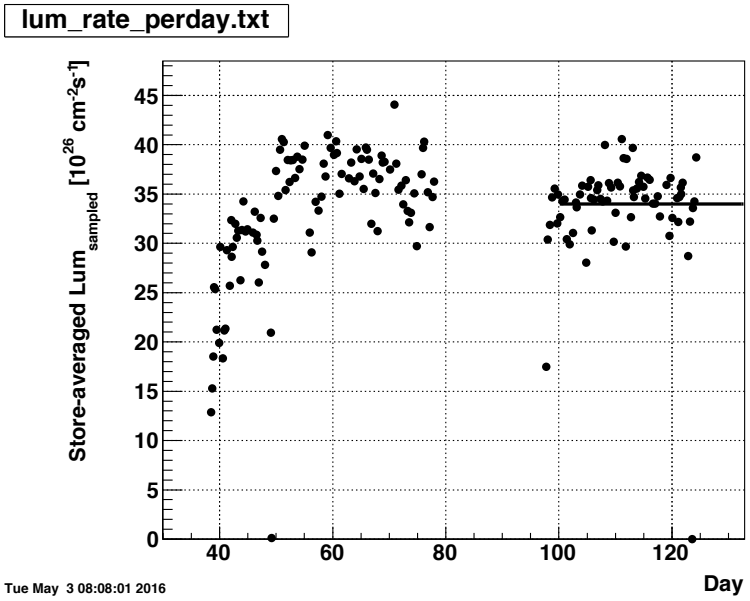


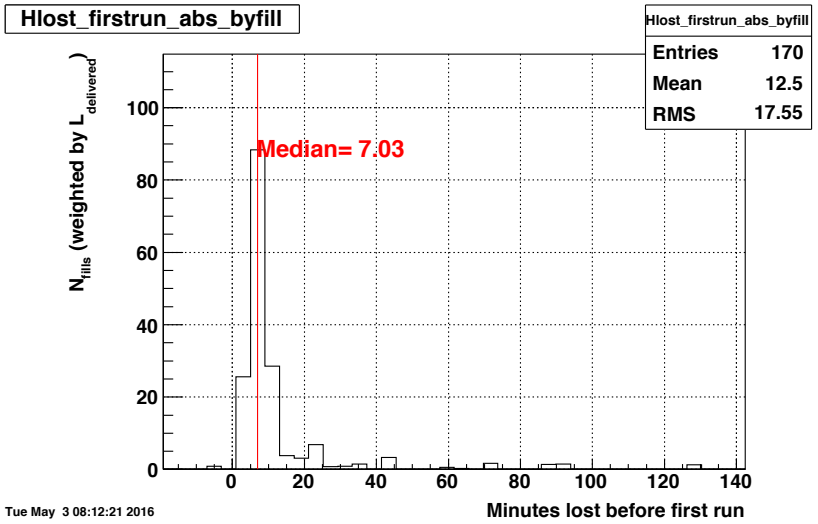
- No significant impact by low intensity beam for MB, but for dimuon

# Detector Readiness & Efficiency

- Smooth operations except recent rare issues
- HFT & dimuon triggers running without prescale







# Sampled Luminosity
