STAR Status
Days 132-138

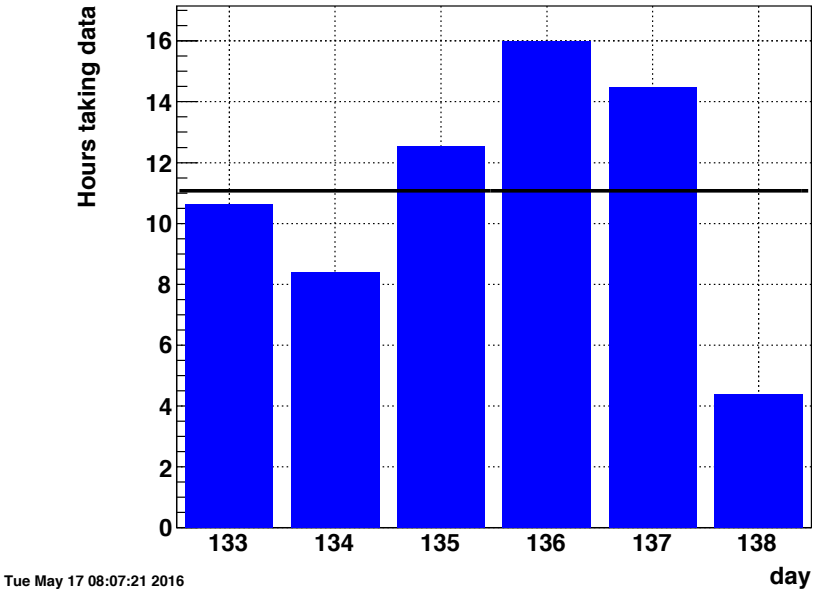
Takahito Todoroki

Time Meeting

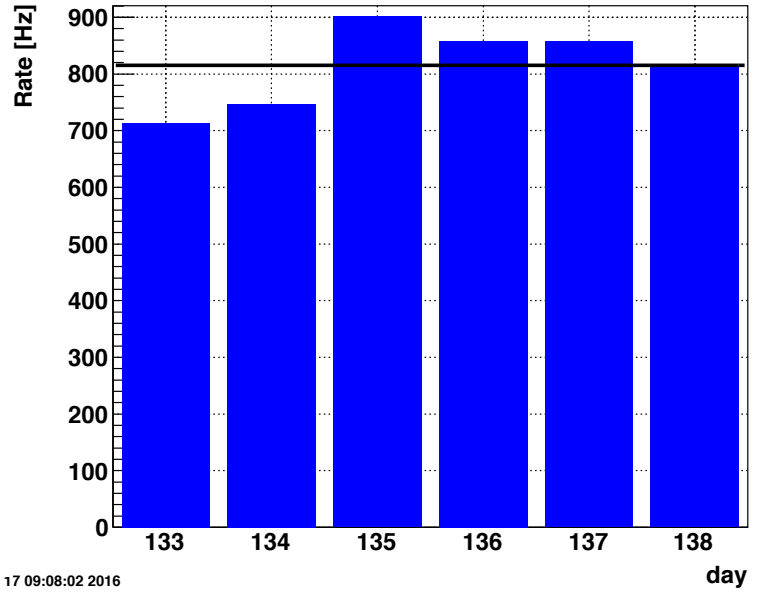
May 17, 2016

d+Au 200 GeV Sampled Luminosity

Hours per day

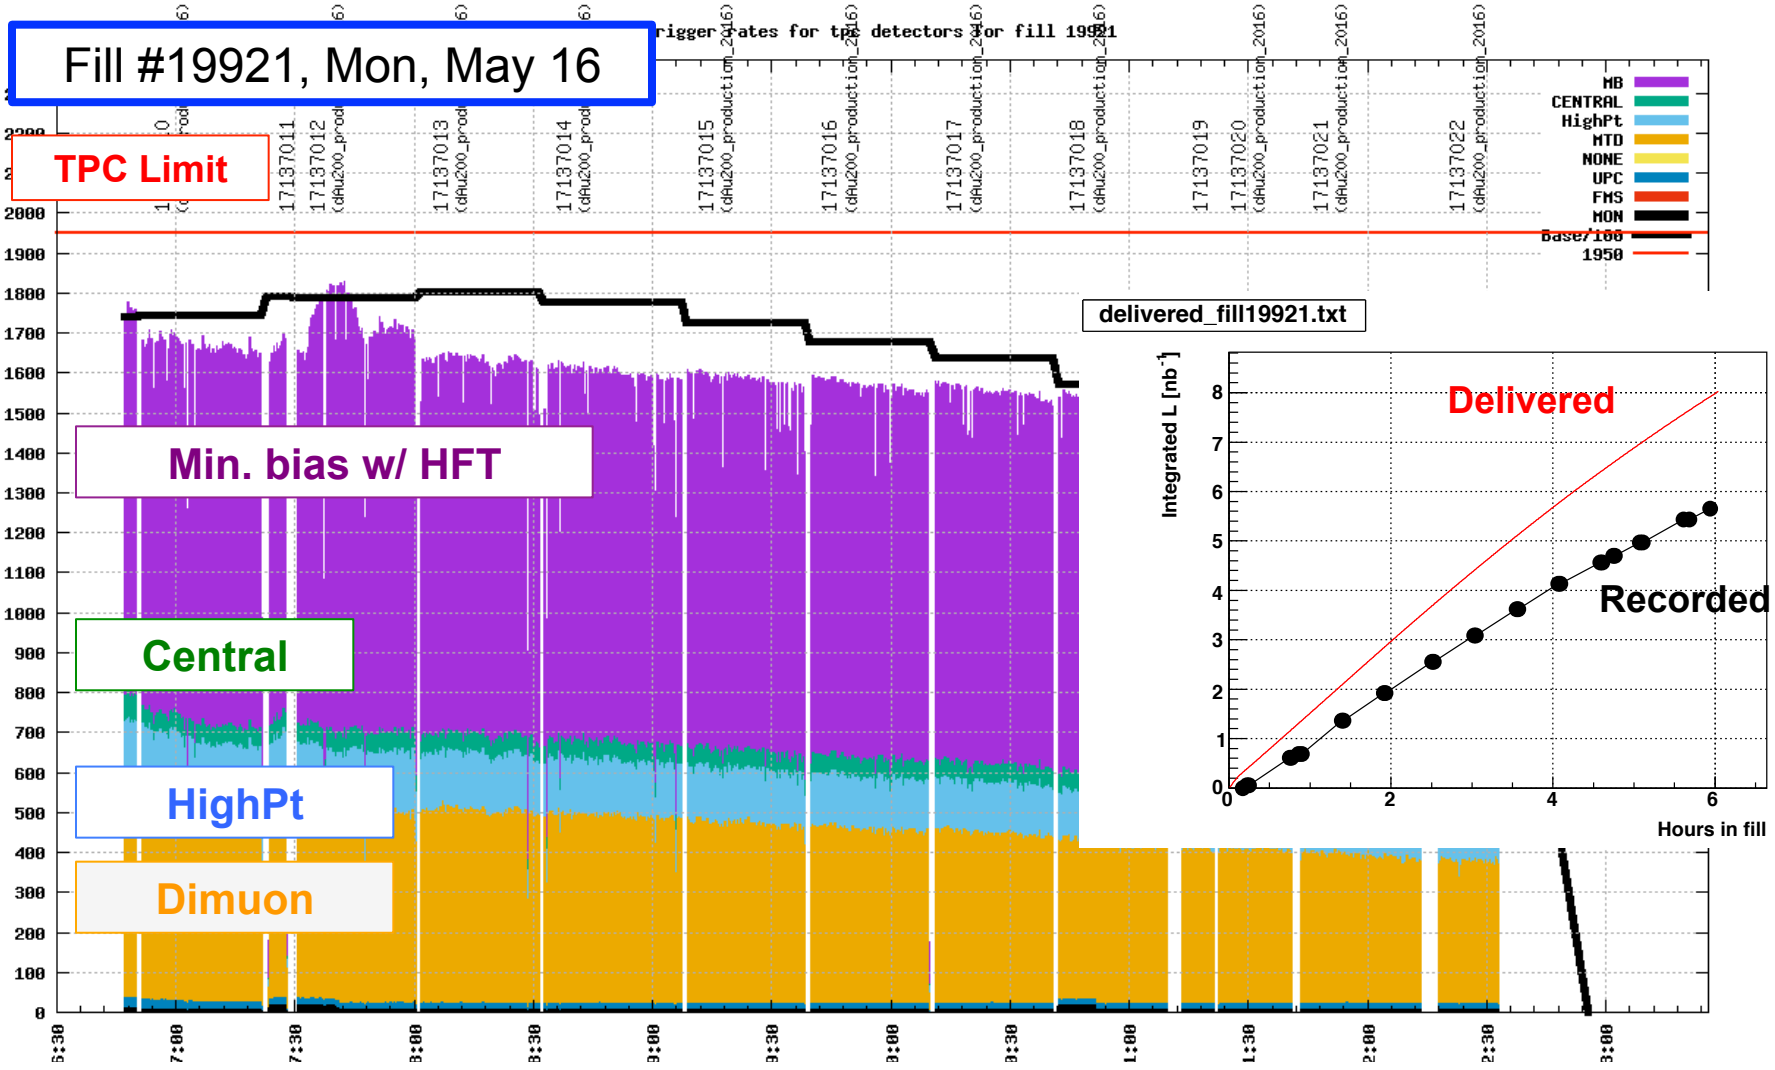


Average rate per day
Min. Bias. (with HFT)



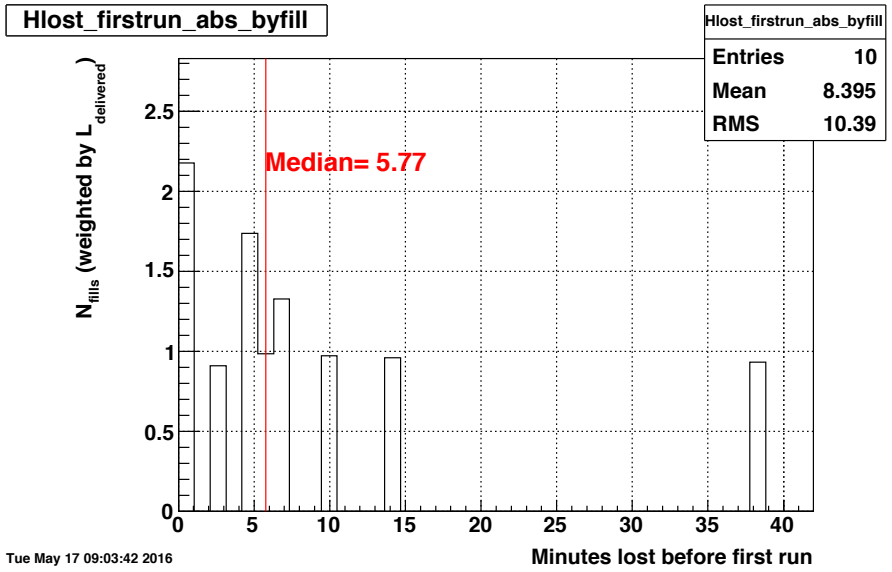
- Wednesday : Successful Detector and Trigger Commissioning
- Thursday : Physics Run Started, Smooth Data Taking
- Friday : Smooth Data Taking
- Weekend : Smooth Data Taking
- Monday : Smooth Data Taking

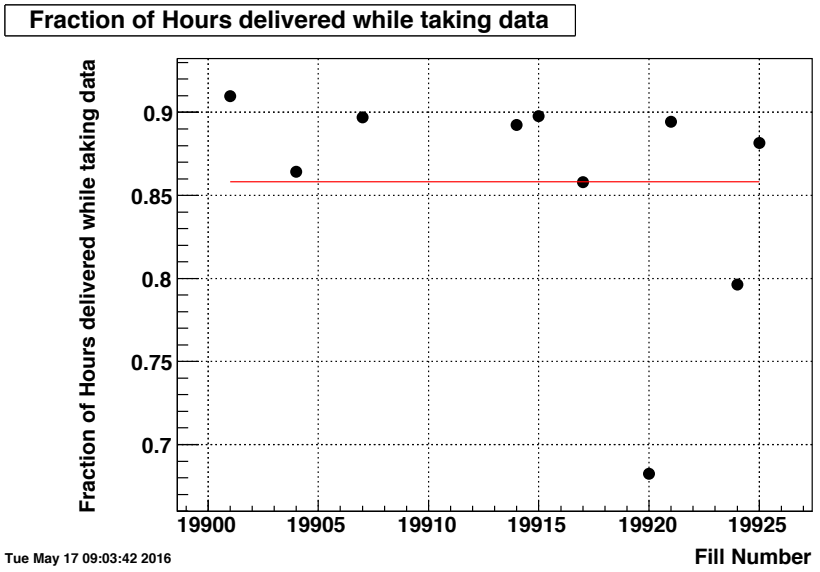
d+Au 200 GeV Sampled Luminosity



- Taking data with a good efficiency ~ 88%

Operation Efficiency

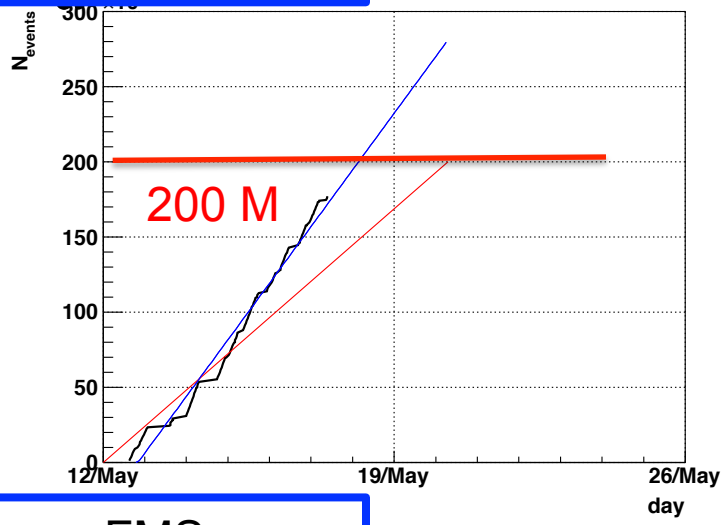




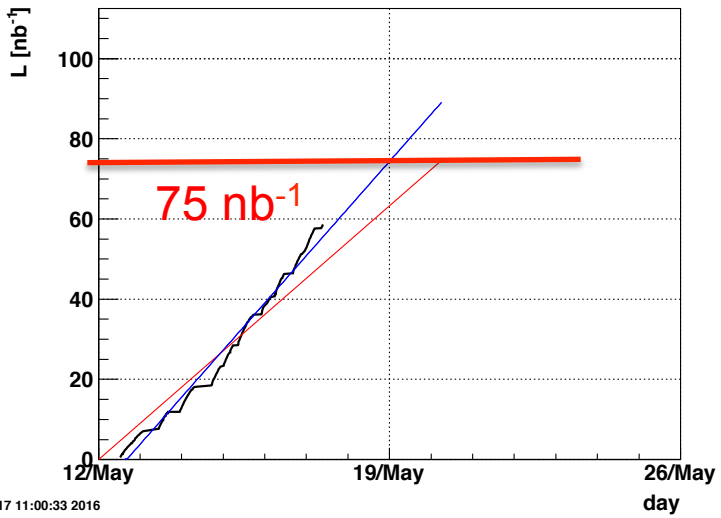
- Quick operation of detectors
- Smooth run of Daq system

d+Au 200 GeV Sampled Luminosity

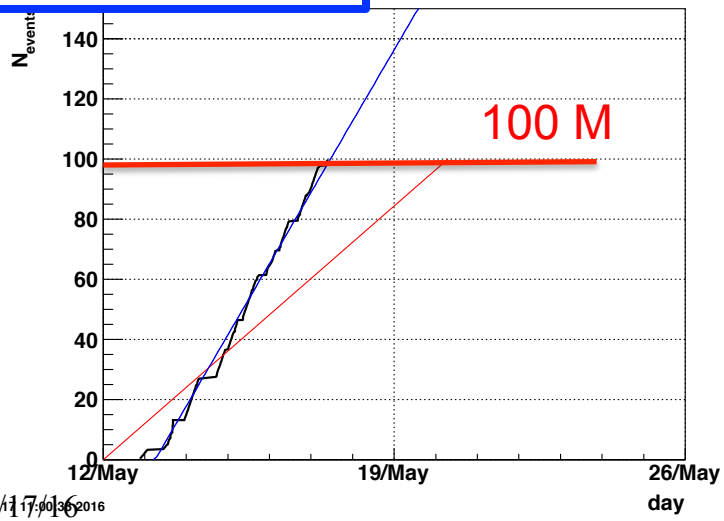
Heavy Flavor



Dimuon



FMS



- Collecting rich amount of data for Heavy Flavor, Dimuon, and FMS physics programs
